## Web Developer

✉ aaronhe09@yahoo.com 📍 West Covina, California 🌐 Github in LinkedIn

### Technical Skills

**Strong** (JavaScript (ES5/ES6), HTML5, CSS3, React.js),

**Experienced** (Node.js Express, iQuery, RESTful APIs, AJAX, JSON, Flexbox, Bootstrap 4, Nextjs, Tailwind, Framer Motion, Typescript),

**Tools** (React Hooks, PostgreSQL, Webpack Babel, AWS Ec2, npm, Git, Github, VS Code, Figma, Meistertask, DbDesigner, Slack, Agile Methodology, ESLint, Ubuntu, clsx)

### Applications Developed

#### Rizz-O-Meter

Github [🔗](#) Live [🔗](#)

Application for players who are interested in playing blackjack

- Employing the routing capabilities of **Next.js**, adeptly orchestrating the rendering process for every individual page, ensuring a seamless and efficient navigation experience for users.
- Integrating the Framer Motion library, captivating transition animations that elegantly enhance the user's journey across each distinct page.

#### Unveiling Ancient Military Might

Github [🔗](#) Live [🔗](#)

A full stack JavaScript application for people who want to learn more about ancient civilizations.

- Employed React to craft an engaging and user-friendly frontend interface, enhancing the interactive learning experience for individuals exploring the depths of ancient civilizations.
- Utilized Express to construct a resilient backend foundation, enabling seamless data communication between the frontend and the PostgreSQL database, ensuring a smooth and responsive user experience.
- Implemented PostgreSQL to efficiently manage and store a vast array of information related to ancient civilizations, enabling users to access a comprehensive library of historical knowledge.

### Professional Experience

#### Frac Equipment Operator, Liberty Oilfield

11/2022 – 05/2023

Brighton, Colorado

- Communicated adeptly with a team of twelve, skillfully facilitating the creation of a secure and incident-free environment over the course of a 16-hour shift.
- Demonstrated responsibility by skillfully transporting heavy and oversized equipment such as iron, horsepower, and totes to and from the current well site using a 10-wheeler.
- Displayed attention to detail while ensuring successful well operations by correctly rigging in and rigging out all equipment

#### Busser, Haidilao Hotpot

09/2020 – 03/2021

City of Industry,  
California

- Exemplified exceptional teamwork and collaboration by seamlessly engaging with fellow staff members in a food-focused workplace, ensuring a harmonious and efficient operational environment.
- Exhibited agility in resolving unexpected challenges, from adjusting to dietary restrictions to addressing customer concerns, and maintaining a positive guest experience.

#### Server, Cali Noodles & Grill

01/2020 – 08/2020

West Covina, California

- Ensured high customer satisfaction rate by preparing restaurant tables with special attention to sanitation and order, attending to customers upon entrance to the restaurant
- Demonstrated exceptional accuracy and accountability when managing monetary transactions in the restaurant, ensuring error-free payments, proper change distribution, and meticulous record-keeping.

### Education

#### Accelerated Web Development Program, Learning Fuze

- Dedicated over 800 hours in a simulated agile work environment over a 14 week period
